Platforms & Tools: Figma • Adobe Photoshop • Illustrator • InDesign • After Effects • Premiere Pro • Shopify • HTML/CSS Knowledge • Claude • Codex

Product Context: B2B SaaS • E-commerce • Dashboards • Forms & Multi-Step Flows • Accessibility Awareness • Cross-Functional Collaboration • AI-Assisted Prototyping

PROFESSIONAL EXPERIENCE

BALLYCORP | UI/UX & GRAPHIC DESIGNER

London, Ontario | Mar 2025 - Aug 2026

- Designed responsive business and dashboard workflows connecting sales teams, suppliers, internal stakeholders and clients, translating operational requirements into clear digital experiences.
- Created user flows, wireframes, interface layouts and high-fidelity UI while supporting implementation and iteration with development and business stakeholders.
- Applied reusable UI patterns and consistent visual systems across product-facing interfaces, web experiences and digital communications.
- Bridged product and visual design by producing web, brand, campaign and sales assets while maintaining hierarchy, accessibility awareness and cross-channel consistency.

KITLAB FS | FOUNDER & PRODUCT DESIGNER

E-commerce Product | Mar 2026 - Present

- Own end-to-end product and UX/UI design for an e-commerce platform that has served **450,000+ visitors**, combining customer behavior, feedback and business context to identify friction and prioritize improvements.
- Designed product discovery, navigation, filtering and customization experiences across a **1,200+ product catalog**, creating reusable patterns for a scalable responsive storefront.
- Led design and product decisions across a five-person design, development and marketing team; the business generated **\$19,000+ in sales over a recent three-month period**.
- Manage the product from concept through implementation, balancing customer experience, conversion goals, merchandising, brand consistency and technical constraints.

FREELANCE | UI/UX, WEB & VISUAL DESIGNER

Ontario / Remote | 2021 - Present

- Design responsive websites, interfaces and visual systems for client and self-directed projects, moving from requirements and structure through polished execution.
- Translate business goals into clear information architecture, interface hierarchy and branded digital experiences using Figma and Adobe Creative Cloud.
- Collaborate directly with clients and developers, presenting design rationale, incorporating feedback and preparing implementation-ready assets.

CREATIVE MEDIA STUDIO | JUNIOR GRAPHIC DESIGNER

Jul 2023 - Jan 2025

- Produced brand, social, promotional and digital assets across multiple client projects while working within established visual systems and deadlines.
- Developed strong typography, hierarchy, layout and production discipline that supports high-fidelity product interface and marketing design.

SELECTED PRODUCT PROJECTS

COMMERCEFLOW | B2B SAAS OPERATIONS DASHBOARD

- Designed a unified SaaS dashboard bringing orders, inventory, customers, advertising, reports, alerts and integrations into one system; structured complex operational information into clear navigation and reusable interface patterns.

MATCHUP | MOBILE BOOKING & PAYMENTS PRODUCT

- Designed multi-step journeys for field booking, match participation, position selection, split payments, player profiles, rankings and history, balancing transactional clarity with a cohesive mobile experience.

EDUCATION

Fanshawe College | Graphic Design Advanced Diploma | London, Ontario | 2022 - 2025
